GREAT RAILWAY SCHEME.

A Plan for a Grand International Consolidation.

Union of the Pacific Entironds and an Extension to the City of Mexico Contemplated.

A Gigantic Enterprise Projected.
On the application of the directors of the Misouri, Kansas & Texas railroad for the discharge of

Mexico.

Friends of General Grant, cognizant of the plans above outlined, say the general has been fully consulted in reference to the scheme, and that it is favorably regarded by him. The present visit of Senor Romero of Mexico to the United States, and the recent meeting at New York, at which General Grant made an interacting speech on the Immense natural resources of Mexico, the opportunities presented by that country for the profitable investment of capital in realroad and mining enterprises, and the great countercial advantages to be derived by the United States by establishing railroad communications with the states of Mexico, are believed to have intimate connection with this contemplated enterprise.

ACTION OF THE M. K. & T. STOCKHOLDERS.
PARSONS, KAN., NOV. 17.—The stockholders of

ACTION OF THE M. K. & T. STOCKHOLDERS.

PARSONS, KAN., NOV. 17.—The stockholders of the Missouri, Kansas & Texas miliway had a meeting here to-day, two-thirds of the stock being represented. It was unanimously voted to increase the stock to not less than \$25,000,000 for the purpose of extending the line of road from Whitesboro, twenty-live miles from Bennison, Tex., to Camargo on the Rio Grande river, a distance of 500 miles also to build a line from Muskogee, Indian Territory, to Fort Smith, Arkansas; also to build such additional lines as will secure early and the closest cannections with New Orleans. Money has already been subscribed to secure a speedy construction of all these contemplated roads, adding some 600 miles to the ED miles of road now owned and operated by this company. At Camargo the Missouri, Kansas & Texas will connect with a road running to the City of Mexico in the interest of General Palmer and other builders of the road, in all making about 1,500 miles note of the road, in all making about 1,500 miles and content. It is under his inspiration that these new lines are to be built. A dispatch also received from Independence, Kan, says that a subside on the road of the purpose of the purp could be had for building southwest. The parties here are requested to confer with Jay

A Railroad Purchased by Jay Gould. DENVER, Cot., Nov. 17.—The Times this afternoon announces that a telegram received from New York states that Jay Gould has purchased the Denannounces that a telegram received from New Register, in company with the sheriff informed York states that Jay Gould has purchased the Denver & South Fark railroad, the purchase money amounting to nearly \$2,000,000, having been paid at the last moment." amounting to nearly \$2,000,000, having been paid over yesterday. Jay Gould has been endeavoring toget control of the Denver & Rio Grande road, but has falled through the opposition of General Palmer, president of the road, and it is thought the purchase of the South Fark road is made with a view to dictate the policy of the Rio Grande. The two roads will have parallel lines to the Gunuson country and Gould hopes to bring the Rio Grande to terms through the instrumentality of the South Park.

Liquitenant Clarks returned from Wolf point isst night. The while scout and Sloux Indians sent to Sitting Bull's ownp for his final answer returned with this message; "Sitting Bull has given his promise to Major Walsh not to take any decided action until Major Walsh's return this month." Whother on Canadian soil or immediate followers appear to be under the control or influence of that tanadian official. His position is covered by helf-breed camps, which can be at once removed. These out of the way, with the surrenders that have been made, leaves Sitting Bull's following a camp of outlaws, which should surrender or be destroyed. If they recross the line I see no reason why they should not be arrested the same as other offenders. Low log and party, the murderers of Stage Inter Fries on July 21, are with that camp. The 1,000 surrendered Indians here are doing well and under good control.

Allison has just returned and I have heard all he has to say, and believe, beyond a shadow of a doubt he will be successful in bringing in Sitting Buil if not interfered with, and permitted to go out ngain so as to reach the indian camp by the 20th. There will be, he says, some 900 Indians. Therefore, if they do come, there will have to be some provision made to feed them, if it is intended they shall remain here during the winter.
